

Series 2000 Sectional Garage Doors

The finest sectional doors offering nothing but benefits

The track-guided automatic sectional garage doors
just keep running and running ...

Hörmann automatic sectional doors

because they offer greater convenience and security

You can operate a Hörmann automatic door as conveniently as your TV set. On the press of a button, you drive into your garage, protected from all weathers. When it's dark, the direct route affords you greater safety and security. It goes without saying that Hörmann doors and operators are tested by the TÜV (German Technical Inspectorate) as a single safety unit.

Beautiful surfaces

You have a choice of three attractive, weather-proof finishes:

Woodgrain-embossed
Robust woodgrain structured surface with authentic sawn timber look.

Silkgrain® surface finish
Silky-smooth elegant surface finish.

Decograin® surface finish
UV-resistant synthetic foil coating with unique embossed graining conveying the authentic character of timber.

A vast array of colours

Integrate your garage door into your home's colour concept. All steel doors are supplied as standard in traffic white. Double-skinned garage doors additionally available in 15 inexpensive factory colours. Please note all colours below are made to order only.

Standard Colours

White aluminium 9006

Anthracite grey 7016

Fir green 6009

Terra brown 8028

Moss green 6005

Clay brown 8003

Dove blue 5014

Ochre brown 8001

Steel blue 5011

Window grey 7040

Sapphire blue 5003

Light grey 7035

Stone grey 7030

Ruby red 3003

Light ivory 1015

All RAL colours available to special order.

We offer a frame cladding to match the colour of the door.

Daylight stylishly integrated

Incorporate glazing to give your garage an individual look, matched to the windows, front door and the architectural style of your home. For example, with large areas of compound windows to set up the garage as a »work room«. Or if you have chosen a panelled door, why not opt for the classic aesthetics of decorative latticework? And with the impressive Sunrise designs you see the sun rise on your door each and every day.

Choose between two innovative Hörmann operators

ProMatic // NEW

The inexpensive starter model as an introduction to the Hörmann premium quality, for a maximum of 10 door cycles (open/close) per day. Opening speed: 14 cm/s.

SupraMatic

The high-quality operator with an array of additional functions for a maximum of 50 door cycles (open/close) per day. Opening speed: 22 cm/s.

The Operator Technology

- 868.3 MHz radio frequency with a stable range
- Every operator comes with a 4-button hand transmitter and a micro 2-button hand transmitter
- Integral receiver // NEW
- Automatic door latching affords effective protection against forced opening. A unique mechanical device that remains functional even in the event of a power failure.
- On encountering an obstruction, a reliable automatic cut-out stops the door immediately
- A "soft" start and "soft" stop saves wear and tear on both the door and operator
- Maintenance-free patented toothed belt
- Internal emergency release
- Easy to install. Everything is precisely prepared.

Further information on Hörmann operators for garage doors and entrance gates can be found in our specialist brochures or on our website at www.hoermann.com.

The Manually Operated Sectional Door

Where a beautiful handle places a special accent

Ergonomically styled, safe and in a top design

With this handle, developed by designers and safety experts, you hold a quality in your hand that in this form no other manufacturer can match. The flush-fitting cylinder can also be mastered with other locks in your home.

Black plastic

Cast aluminium, white (similar to Traffic white)

Cast aluminium, new silver finish

Cast aluminium, brass finish

Polished stainless steel

Brushed stainless steel

Cast aluminium, bronze finish

Burglar- resistant thanks to snap locking

A sturdy automatic latching spring disc grips round a solid steel bolt to securely retain the door. Intruders don't stand a chance!
